

Appl. No. 10/756,053
Amdt. dated November 23, 2005
Reply to Office action of August 24, 2005

REMARKS

Reconsideration is respectfully requested. Claims 1-3, 6, 7, 10 and 12-16 are present in the application after this amendment.

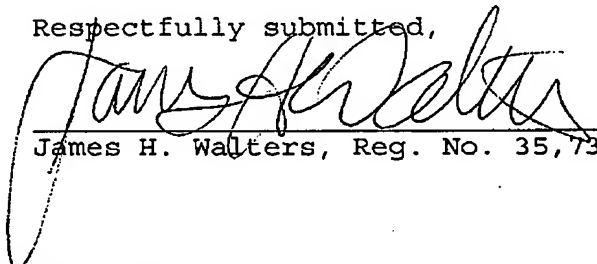

The (S_{hr}) is the referenced number of the reflected light signal. Therefore, in page 5 of the original specification "the reflected light signal (S_{eo})" should be amended to "the reflected light signal (S_{hr})". Thus, the drawings of the referenced application do not have to be amended.

The Examiner asserts that claims 6 11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Since claims 8 and 9 indirectly depend upon the rejected base claim, new independent claim 12 is added. Therefore, claims 4 and 8 are incorporated into claim 1, and claims 5 and 9 are incorporated into claim 12. New dependent claims 13 to 16 correspond respectively to original claims 2, 3, 7, 11.
